

Shaping and Grinding

Model 2000

The Hustler is the only Straight-Line sander with vertically-engaged drive gears and a 2-cylinder, common piston configuration. This delivers the smoothest operation of any available Straight-Line sander. The available 4 ½" X 16" pad makes the 2000 an impressive woodworking tool. **Similar models:** 4920, 2000-4 & 4920-4.

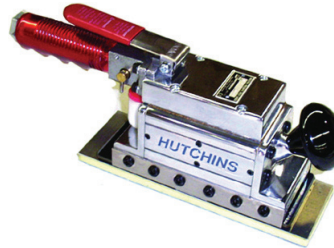

Model 3800-4

This version of the 3800 sports a 4 ½" X 16" pad available in PSA or Velcro for Industrial & Marine applications when large flat surface sanding is required. The large 72 square inch footprint allows the operator to eliminate many manual sanding steps while cutting production time. **Similar model:** 4932-4.

Model 3800

The powerful air-efficient motor with the 5 point suspension guarantees 44 square inches of uniform full-contact sanding. The 3800 is the most versatile of the aggressive sanders designed for rapid material removal. Low maintenance and high performance are the trademarks of the 3800 sander. **Similar models:** 4932 & 3804.

Model 2023

Mini-Inline Sander

A smaller version of the 2000 Hustler, the 2023 Mini offers a shorter stroke for finer sanding of putties, primers, or even clearcoats in the woodworking industry. Available with three different sized pads (2 ¾" X 8", 2 ¾" X 11", or 4 ½" X 9") the 2023 is a versatile sander for many applications. **Similar models:** 8623, 2025 & 2011.

Model 3806 Marine Rasper

The Marine Rasper was developed as a "Power Float" sander for boat builders who want a final power sanding step in the mold process. The 3806 can be used for many larger projects such as furniture top clear sanding, large mold or plug manufacturing, or anywhere a perfectly flat surface is required.

Model 2001 Eliminator

This 18 to 1 reduction gear Grinder delivers Low-Speed, Hi Torque sanding to produce a controlled "Shaving Action" on paint, metal or fillers. The low speed increases operator precision while decreasing surface temperature reducing the possibility of distortion. Available with 8" or 11" pads. **Similar models:** 4921, 2006 & 4906.

Model 3900

This rugged sander with its 5 point suspension offers unequalled Hi-Performance with full contact sanding. Excellent for power blocking and flattening, the 3900 delivers years of low maintenance operation and high operator efficiency. The 4 ½" X 9" pad delivers 44 square inches of cutting surface. **Similar models:** 4564, 4565 & 4933.

Model 2006

Similar to its big brother, the 2006 uses a planetary gear drive system to deliver Hi-Torque, Low Speed grinding for control. Available with 5", 6" or 8" pads, the 2006 is an excellent choice for shaping filler or stripping paint. Its' compact size affords the operator unequalled sanding accuracy and performance. **Similar models:** 2001 & 4921.
