

PROFINISHER™

BY HUTCHINS

Now Hutchins Manufacturing,
The Leaders in Sanding Technology,
make sanding **Aluminum** Easy!

FREE "For **Aluminum** Only" trigger
with purchase of any NEW Profinisher™
for your dedicated **Aluminum**
repair area!

- Purchase a Hutchins ProFinisher™ sander
 - Scan the QR code on the package or email info@hutchinsmfg.com with "**Aluminum** trigger" on the subject line.
- Receive, at no charge, a color-coded trigger for your new sander identifying it as an "**Aluminum** Only" sander

By converting to our "**Aluminum** Only" trigger
you are alerting your shop to use this sander only
on **Aluminum** surfaces.

Complete your **Aluminum** sanding needs by
adding Hutchins Anti-Static air hoses.
Uncontrolled Static discharge can cause
Aluminum dust to ignite triggering possible
damage and injury. Dispersing Static
charge with Hutchins Anti-Static hoses while
sanding greatly reduces the chance
of static transfer.

Static Electricity, in the presence of Aluminum or Magnesium dust, can cause dangerous and possibly explosive results. The Hutchins Anti-Static Hose, when properly installed, can greatly reduce the risk of static electricity arcing. As always follow the OEM recommendations for "best practice" procedures when preparing any surface. Please consult your local and State codes for recommended guidelines.
