

PROFINISHERTM BY HUTCHINS

Cutting Edge American Made Technology at an import price!

- Ergonomically engineered trigger assembly for added comfort and reduced operator fatigue

- Designed to direct cold exhaust air away from the operator

- Easy to replace drop-in motor assembly to reduce down time

503 with 3/32" offset
(blue air inlet)

603 with 3/16" offset
(red air inlet)

- Cylinder and housing construction combined with five vane composite motor to ensure maximum performance with low air consumption.

- 3" pad size allows for better sanding access for bumpers, doorjambes or any hard-to-reach area

- Choice of offsets:

Blue 3/32" for the Painter for de-nibbing or paint prep
Red 3/16" for the Bodyman for shaping and feather-edging or headlight restoration

- Both models can easily be converted for Vacuum Sanding

Hutchins ProFinisherTM

Sanders that continue to deliver

unequaled performance and longevity at a competitive price!

ProFinisherTM by Hutchins Mfg Co, 49 N. Lotus Ave, Pasadena, CA. 91107(800)-247-3199 www.hutchinsmfg.com

Specifications: Country of Origin: USA 12,000RPM 10.7 CFM 3" Hook Type Pad STD Air Connection: 1/4" Horsepower: .25
Vibration <2.50* Noise Emission: 81dBa (models 503 & 603)*

*NOISE AND VIBRATION

The noise and vibration values stated are from laboratory testing in conformity with stated codes and standards and are not sufficient risk evaluation. Values measured in a particular work place may be higher than the declared values. The actual exposure values and amount of risk or harm experienced to an individual is unique to each situation and depends upon the surrounding environment, the way in which the individual works, the particular material being worked, work station design, as well as upon the exposure time and the physical condition of the user. Hutchins cannot be held responsible for the consequences of using declared values instead of actual exposure values for any individual risk assessment. FLO2
